

Nuova Sivam & Genver Coatings Pvt. Ltd. was established in the year 2016 by Mr. Puneet Goel. With his vast experience in Marketing & Trading of Paints and Coatings and a great understanding of the products of almost 20 years, he ventured into Manufacturing and has since not looked back. Today Genver offers a complete range of Wood Coatings which include PU Wood Coatings, Acrylic & Polyester Coatings and Special Effects besides Metal & Glass Coatings.

The Genver Italia range of PU Coatings are fully imported and specially packed for Genver by a globally renowned company, RAR Holdings Group having operations in Middle East & Europe. Besides PU products Genver also specialises in Melamine, NC finishes, Wood Fillers & Stains.

All Genver PU products are backed by a technological support of RAR Holdings UAE, one of the largest Paint & Wood Coating Group of companies internationally (Ranked 57th in the world, reference "Coatings World" magazine) thus enabling Genver to bring to you the best of PU range in both Solvent & Water Base products and UV Coatings. An in-house Research & Technology department ensures continuous innovation and development at our State - Of - The - Art manufacturing facility to offer best in class products to consumers.

### OUR VISION

To be the most admired organization in providing high quality Wood Coatings System & Allied products in India with international recognized competencies.

### OUR MISSION

To maximize value for all who are or will be associated with us by providing best products & solutions to our Customers and consistently outperforming our competitors and providing a Dynamic & Challenging work environment for our employees.

### PU COATINGS

### Furniture Coatings

Finishing is the final step of the manufacturing process that gives wood surfaces desirable characteristics, including enhanced appearance and increased resistance to moisture and other environmental agents. Finishing can also make wood easier to clean and keep it sanitized, sealing pores that can be breeding grounds for bacteria. Finishing can also influence other wood properties, for example tonal qualities of musical instruments and hardness of flooring. In addition, finishing provides a way of giving low-value woods the appearance of ones that are expensive and difficult to obtain.

### Polyurethane Colour Tinting Technology

Colour of Nature , greets us in every place, moods, weather & in every aspect of life.

GENVER ITALIA polyurethane tinting system offers a wide range of solutions to meet each and every choices of colours & Shades.

### DESIGNER WOOD COATINGS FOR YOUR DREAM HOMES!

## MELAMINE

GENVER Melamine polish is made from high quality resin and thus forms an excellent thin like film coating when applied on wood and makes the wood non-breathable and thus protects the wood from hot & cold surfaces placed over it. Genver melamine dries up fast after application and lasts much longer than any other melamine polish, is resistant to scratch, stain & heat, protects the furniture internally from daily wear & tear and keeps your furniture looking shiny for years besides increasing its aesthetic look. Genver Melamine is available in Gloss, Matt & Clear finishes.

Products	Product Code	Quantity Ltr / Kg	Packing
Melamine Sealer	GMS200	20L	1 Pcs
